PROFILE

• Full Stack Developer with a Master's degree in Design.
• Detailed knowledge and work experience of modern Javascript frameworks and technologies - React, React Native and associated libraries and tooling including GraphQL and serverless backend.
• Strong attention to detail, proactive, able to troubleshoot and work through complex problems independently and collaboratively.

EMPLOYMENT

Software Engineer (Contractor)
Planes
Jul 2020 – Current, London, UK
• Collaborate with Tech Lead, Product Managers, UX Designers and other engineers in an Agile working environment to deliver both new functionalities and iterative improvements to client's web and mobile applications.
• Build scalable, reusable, highly responsive and test-driven web and mobile applications, using TypeScript, Next.js, React, React Native, Styled Components, Styled System, Chakra UI, Storybook, GraphQL, AWS, Knex, Postgres, Contentful, Shopify (both headless and using Liquid), Stripe, Salesforce, Puppeteer, Jest.
• Participate in code reviews and knowledge-sharing with other engineers.

Freelance Web Developer/Designer
Jun 2020 – Current, London, UK
• Design and develop user-facing websites from concept to production.

Studio Assistant Intern
M. de Nood
Oct 2019 – Mar 2020, London, UK
• Work with the studio team for the Autumn / Winter 2020 collection from initial concept to production.
• Assist with pattern cutting and produce accurate toiles for development. Produce samples to couture standards, from preparing fabric for cutting to working on industrial machines and hand sewing for finishing.

Design Intern
XU ZHI
Sep 2018, Jan – Apr 2019, London, UK
• Support the creative team with researching, sourcing for fabrics and trims, developing textile samples, draping and making toiles for product development for London Fashion Weeks.
• Assist seamstresses with making showpiece and alteration to the deadlines given, including pattern cutting, hand sewing, and working on industrial machines.

Design Assistant
Xuege
Jun – Aug 2017, Wenzhou, China
• Assist designers during the design process from researching to making pre-production samples, including creating mood boards, making embroidery and beading samples, CAD drawings, sourcing fabrics and trims and creating tech packs.
• Work closely with the accessory department, in-house pattern makers and the sample room throughout the sample-making.
